

Neste Singapore

Health, Safety, Security, Environmental and Quality (HSSEQ) Policy

- We will strive to ensure an accident and injury free workplace through strict compliance with our Life Saving Rules. We will learn from incidents and identify measures to eliminate root causes to avoid recurrence.
- We will ensure appropriate security and control measures are in place to manage security risk, safeguard the people and the refinery.
- We are committed to environmental protection and sustainability. Through environmental aspect and impact studies, energy management practices and safe management of hazardous substances, we strive towards conservation of all resources, energy efficiency, and minimization of wastes, emissions and releases throughout our operations.
- We are committed to delivery products and services that meet our customer's quality and delivery expectations.
- We will continuously strengthen and improve the effectiveness of our Health, Safety, Environmental and Quality Management System and establish key performance indicators as part of our annual performance improvement plan.
- We will comply with corporate policies and all applicable HSSEQ legislation and requirements.
- We will be a responsible corporate citizen, provide a safe working environment, and safeguard the health of our employees, partners, neighbours and the general community.

**Neste's purpose-
To create a healthier planet
for our children.
To that end, Neste Singapore
is committed to set high
standards of HSSEQ
performance through the
operating principles.
We will use a management
system approach to drive
continual improvement in all
areas of our operations.**
